

# MOBILE AUGER SAMPLER

**CUSTOMISE  
INNOVATE  
IMPROVE**

MECHANISED SAMPLE COLLECTION FROM TRUCKS AND WAGONS

**GEMINI Auger Samplers** are designed to extract a full profile of the sample from trucks and wagons in accordance to the relevant standards. The Auger Sampler is attached to a telehandler for a highly mobile sampling solution. **GEMINI Auger Samplers** can extract material from the depths of the truck / wagon while adjustable Mechanical Stopper prevents damage to the base of the carrier.
